

## 62nd IALB / 12th EUFRAS / 9th SEASN Conference 2023 in Saxony / Germany

### Call for posters

The **International Academy for Rural Extension (IALB)** (<https://www.ialb.org/>) and the **Saxon State Office for Environment, Agriculture and Geology** (<https://www.lfulg.sachsen.de>) associated with the partner organisations **EUFRAS** (<https://www.eufas.eu>) and **SEASN** (<https://seasn.com.hr/en>) invite you to the **62nd International Workshop for Education and Extension Actors in Rural Areas**, Agriculture and the Environment Sector, including the Nutrition Sector, to be held in **Dresden from 10 to 14 September 2023**.

The **theme** of the conference is:

**"The role of education and advice in the transformation process of agriculture - in the context of climate change, ensuring nutrition and social requirements".**

Our meeting is intended in particular to provide and discuss impulses for the strategic orientation of work within the framework of the agricultural "knowledge transfer", in order to build on this to provide the best possible technical and methodological support to people and enterprises in rural areas in their individual adaptation processes. For us, the focus is on common good issues, which are ultimately in the context of **education for sustainable development**.

Stakeholders in education and advisory services from politics, science, practice and administration are hereby cordially invited to contribute their projects and plans, advisory and educational methods and new ideas to the conference via the joint **poster session**. The posters are a proven format for publicising regional activities.

The posters will be presented and awarded prizes at a **presentation on 11. - 13.09.2023**. The **awarding** will be done by a jury. Please note that a contact person should be available to present your poster and answer questions during the morning poster session.

Technical requirements:

The poster should be single-sided in A 0 format (84.1 x 118.9 cm). In addition to the technical content, the title, author and contact information should be mentioned. Good legibility from a distance of 1.5 to 2.0 m is important for the design.

Furthermore, it is planned to publish the posters on the **conference homepage** and in the **conference folder**. The digital version is to be designed in such a way that it can be read on a 24-inch screen with 1920 x 1080 pixels without scrolling.

Please send the posters in PDF format to [thomas.kitt@smekul.sachsen.de](mailto:thomas.kitt@smekul.sachsen.de) and [andrea.rau@smekul.sachsen.de](mailto:andrea.rau@smekul.sachsen.de) by **20.08.2023** at the latest. Printing can take place in Dresden. You will receive the poster on site. You can also bring your poster yourself. Please inform us if you want us to do the printing.

**Please announce this invitation in your organisation and to interested persons.** Please do not hesitate to contact us if you have any questions or suggestions for our joint project.

Many thanks and best regards from the organising team of the **IALB-EUFRAS-SEASN meeting 2023 in Dresden**

**Henrik Fichtner**

**Eva-Maria Neumann**

**Robby Oehme**
